

BUILDING THE FUTURE OF EDUCATION

The New Blume Platform: An Integrated Ecosystem for Learning, Insight, and Impact

Purpose-built for educators, administrators, and support teams—Blume unifies learning, data, and compliance into one adaptive system.

Blume Tools

Capture academic, behavioral, social-emotional, and functional data in a single streamlined interface.

Build baselines, generate SMART goals, and create progress-monitoring artifacts — all from real-time input.

- Track accuracy, frequency, latency, and more
- Add audio/text notes + work sample uploads
- Auto-generate baseline statements and objectives

Blume Academy

A structured professional learning system with asynchronous lessons and PDP tracking

- Educators receive PDPs for completed lessons and assessments
- New lessons released monthly

Blume Data Companion

Transform data into action with AI-guided support for baseline statements, SMART goals, and instructional strategy.

- Interprets educator-entered data
- Generates Blume-aligned baselines, goals, and objectives
- Recommends instructional focus areas based on goal content
- Fully integrated into Blume Tools workflow

Dashboards & Integration

Administrator Dashboard

Quick access to students, staff, and data activity. Use impersonation tools for coaching, track IEP timelines, and assign PD from one command hub.

Educator Dashboard

A unified workspace with student lists, PD assignments, and data entry tools. Integrated schedule and role-specific alerts improve planning.

Support Staff Dashboard

Assigned student list and streamlined data collection tools for paraprofessionals. Read-only access to goals ensures alignment without overload.

SIS Integration

One-time CSV upload brings in key fields like demographics, enrollment, and IEP components—powering dashboards, student profiles, and analytics.

About Blume

Built by educators for educators, Blume is a purpose-built platform that uncovers student strengths and needs through consistent, efficient, and easy-to-use systems. Designed for teams in high-accountability environments, Blume integrates real-time data collection, professional learning, and compliance tools—reducing paperwork, aligning practice, and empowering educators at every level.
